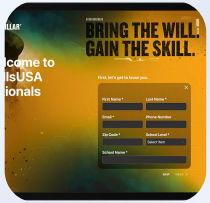
Overview:

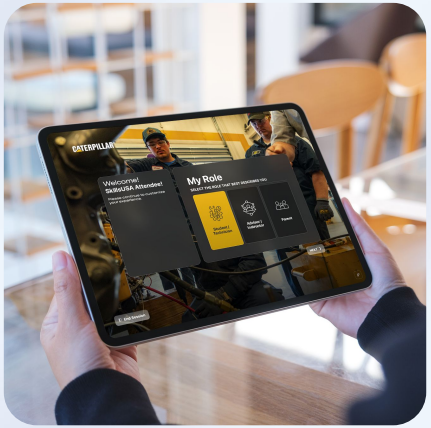
ENTEVATE delivered a scalable, data-driven engagement platform that unified technician recruiting across SkillsUSA, FFA, and dealer pilot events capturing qualified candidates, streamlining follow-up.

Objective:

Empower GDL to modernize technician recruiting and create measurable impact across every event.

- Attract and qualify more technician candidates through consistent, data-backed engagement.
- Simplify lead capture & follow-up for Dealers.
- Strengthen GDL's position as a workforce development leader across the industry.





Solution:

Delivered a unified, persona-driven recruiting platform to capture, qualify, and route candidates in real time, connecting events, schools, and dealers through one consistent experience.

Results:

Increased candidate quality, dealer engagement, simplified follow-up, and measurable insights into recruiting performance, positioning GDL as the benchmark for scalable, data-driven recruiting.
